

VILLAGE OF CHAUVIN

Title: Residential Garbage Collection

Policy No: 2014-02

Purpose:

To ensure a clear understanding of the procedures of residential garbage collection in the Village of Chauvin.

1.0 Policy Statement and Guidelines

It is the policy of the Village of Chauvin that the residential garbage collection will commence on the day designated by the garbage contractor. Garbage collection will happen anytime during that specified day and residents will be responsible for having their garbage ready by 7:00 a.m. for collection.

Residents are required to have garbage bagged and contained in proper garbage receptacles with lids. If garbage is not placed in bags and then placed in the appropriate containers and there is an incident of garbage being spilled out of bags or animals gaining access, it will be the responsibility of that resident to clean up the garbage. This is not the responsibility of garbage contractor.

In the event that garbage is not cleaned up properly, the resident will be notified of the spilled garbage and be required to clean it up. If action is not taken immediately by the resident to clean up the garbage, it may result in fines.

First offence the fine will be \$50.00. The second offence and any offence thereafter the fine shall be \$100.00 each.
